

Is There Something Missing?

Although the library subscribes to more than a dozen major professional review journals and the staff reads thousands of reviews each year, there are still more thousands of new items each year that we don't find out about. The library will not purchase items that we already have in our library system.

To help us fulfill our goal of serving everyone in the community, we welcome suggestions for items to add to the library from Trumbull residents. All requests will be considered according to the library's collection development policy, copies of which are available at the Information desk.

Please use this form to submit your requests. A paper copy of this form is also available at the Information Desk.

Date Submitted: _____

Title: _____
